| 9. cities | |
| 10. ponies | <u>Challenge words:</u> |
| 11. bunches | 19. heroes |
| 12. alleys | 20. libraries |

Social Studies

We are now learning about the three branches of our government: executive, legislative, and judicial. We are learning about the jobs and responsibilities of each branch as well as how checks and balances are used to keep one branch from having too much power.

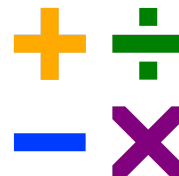

Cursive

We have now learned how to write all of the lowercase letters in cursive, as well as most of the uppercase letters. During 4th quarter, I will expect students to write in cursive all of the time.

Math Rewards

By now your child should have mastered all of his or her multiplication facts and be working toward mastering the division facts. However, there are many who have not passed all of their multiplication facts. In order to encourage those who are not finished and reward those who are, all of those who have completed their multiplication facts by May 1st will receive 30 minutes of extra recess. Those who complete their division facts will be allowed one hour of free time during Math class.
